

SEEKING OUTSTANDING CANDIDATES FOR SENIOR PROJECT SCIENTIST OR ENVIRONMENTAL ENGINEER

MUNDELL & ASSOCIATES, INC. (MUNDELL), a small, dynamic, Indianapolis-based earth and environmental consulting firm is seeking an outstanding candidate to fill the positions of **SENIOR PROJECT SCIENTIST/ENVIRONMENTAL ENGINEER**. Eight to ten plus years of progressive geological, geophysical or environmental engineering consulting experience are desired. The ideal candidate should have a B.S. degree (M.S. or Ph.D. preferred) in a scientific or engineering earth science-related discipline with graduate course work in geology, hydrogeology, geophysics, or environmental or geotechnical engineering from an accredited university. Registration as a Licensed Professional Geologist (LPG) or Professional Engineer (PE) is required. Typical projects involve Phase I and II Environmental Site Assessments, soil/sediment/groundwater sampling, chemical source area mapping, plume delineation, subsurface geological and hydrogeological characterization studies, water resources evaluations, groundwater flow and contaminant transport modeling, corrective action and remedial design for soil and groundwater cleanup, and human health risk assessments.

Desirable experience and skills include senior level project management of multi-disciplinary projects involving engineering and environmental evaluations, excellent familiarity with field data collection and mapping methods, analytical and numerical groundwater flow and contaminant transport modeling, application of geophysical surveys to projects, quantitative and statistical analysis, data visualization, and excellent oral and written communication. The candidate must have a proven track record of demonstrated leadership, client management and development, and delivery of high-quality project documents to clients and regulatory agencies.

WHO ARE WE?

A small firm (currently about 17 people) established in 1995, MUNDELL provides consulting services to small to medium commercial companies, Fortune 500 firms, municipalities, other engineering firms, and the legal community. MUNDELL senior personnel have acted as project engineers and scientists, project managers, project directors, senior technical consultants, and expert witnesses for numerous earth and environmental projects throughout the United States and the world.

The company's specialties include: the quantitative stratigraphic, geochemical, geophysical and hydrogeological characterization of the subsurface; quantitative analysis and engineering design of remediation systems; groundwater modeling and contaminant transport analysis, and environmental and engineering geophysics. Apply to John A. Mundell, President, Mundell & Associates, Inc., 110 South Downey Avenue, Indianapolis, Indiana 46219. Phone: 317-630-9060, Fax: 317-630-9065, jmundell@MundellAssociates.com. Send resume by email in Word or PDF format.

WHAT WE BELIEVE IN?

MUNDELL personnel believe that the proper scientific or engineering analysis of any site communicated in easily understandable terms will provide its clients with the guidance and direction they need to accomplish their goals. We believe that our pleasant demeanor, our comfortable dress, our high level of enjoyment in what we do and how we do it, and our passion for providing a high-quality product creates an atmosphere in our work environment that is attractive to those seeking employment.
