SEEKING OUTSTANDING CANDIDATES

Senior Project Geophysicist/Geologist

MUNDELL & ASSOCIATES, INC. (MUNDELL), a small, dynamic, Indianapolis-based earth and environmental consulting firm is seeking an outstanding candidate to fill the position of Senior Project Geophysicist/Geologist. Ten or more years of progressive geophysical, geological, or environmental engineering consulting experience are required. The ideal candidate should have a B.S. degree (M.S. or Ph.D. preferred) in a scientific or engineering earth science-related discipline with graduate course work in hydrogeology, geophysics, or environmental engineering from an accredited university. Registration as a Licensed Professional Geologist (LPG) or Professional Engineer (PE) or the capacity to become registered is desirable. Typical MUNDELL projects involve Geophysical Surveys, Phase I and II Environmental Site Assessments, soil/sediment/groundwater sampling, chemical source area mapping, plume delineation, subsurface geological and hydrogeological characterization studies, groundwater flow and contaminant transport modeling, corrective action and remedial design for soil and groundwater cleanup, and human health risk assessments. Professional Development will be expected from this position; not only to grow and develop your knowledge base but to also grow and develop staff professionals. Participation in business development will be expected from this position to help grow the Geophysical Services client base.

Desirable skills include advanced knowledge in the geophysics discipline; familiarity with geophysical field data collection methods, excellent surveying and mapping skills, geophysical instrumentation trouble-shooting; quantitative and statistical analysis, data visualization, and excellent oral and written communication. The candidate must demonstrate a proven ability to work independently, organize and manage multiple tasks, project assignments, and interact well with a multidisciplinary team. The candidate will have prior project management experience including directing team members, developing scopes of work, budgeting, and client management.

WHO WE ARE

A small firm (currently about 15 people) established in 1995, MUNDELL provides consulting services to small to medium commercial companies, Fortune 500 firms, municipalities, other engineering firms, and the legal community. MUNDELL senior personnel have acted as project engineers and scientists, project managers, project directors, senior technical consultants, and expert witnesses for numerous earth and environmental projects throughout the United States, Canada, Mexico, Puerto Rico, South America, Europe and Asia.

Our specialties include the quantitative stratigraphic, geochemical, geophysical and hydrogeological characterization of the subsurface; quantitative analysis and engineering design of remediation systems; groundwater modeling and contaminant transport analysis, and environmental and engineering geophysics.

OUR VALUES

MUNDELL personnel believe that the proper scientific or engineering analysis of any site communicated in easily understandable terms will provide its clients with the guidance and direction they need to accomplish their goals. We believe that our pleasant demeanor, our comfortable dress, our high level of enjoyment in what we do and how we do it, and our passion for providing a high-quality product creates an atmosphere in our work environment that is attractive to those seeking employment.
